Examiner's statement of reasons for Allowance

The following is an examiner's statement of reasons for allowance:

For claim 1, the prior art of record does not teach or fairly suggest a method for triggering an uplink transmission in a cable modem comprising receiving a number of time indicator in a a downlink direction, establishing a first knowledge about a total time offset, establishing a second knowledge about an allocated uplink transmission number, reducing the total time offset and synchronizing a shifted slot counter to a shifted time base and wherein in response to a shifted slot counter an uplink signal is triggered.

For claims 5, 7, 8, and 10, the prior art of record does not teach or fairly suggest a device for triggering an uplink transmission in a cable modem comprising means for receiving a number of time indicators, a time indicator offset means for generating a shifted time base, a slot counter coupled to the time indicator so as to synchronize itself to the shifted time base, triggering signal generating means coupled to the slot counter and wherein a maximum counting range of the time indicator offset means is shorter than one time interval between successive time indicator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
